

OPEN IT UP WITH INTEGRAL PULLS

Introducing Pentco's new Integral Face & Integral Edge Pulls, machined to fit the specifications of each individual door or drawer. Pentco's Integral Pulls complement any kitchen design or style.

INTEGRAL EDGE PULL - When installed the Integral Edge Pull allows for a 0.5mm overhang on either side of the drawer or door and approximately 1mm on the face. Maximum length of 36", minimum length of 8".

INTEGRAL FACE PULL - when installed is placed 15mm +/- from the top of the door and 15mm +/- from the edge. Maximum length of 35", minimum length of 8".
