## DURABLE VALUE

Pentco uses the highest quality of materials to achieve a top of the line product which remains unsurpassed in the market.

By using State of the Art equipment and skillful personnel, we are able to offer our customers a product that is near flawless and backed by a warranty like no other.

Durability, UV light stability & longevity are some of the key factors that set Softouch apart from other coating processors.

Only premium grade MDF and superior quality finishing mediums are used to ensure a resilient, long wearing door that will give you many years of life. A Softouch door's endurance adds more value on top of its exceptional affordability.

Pentco uses only high quality UV stable finishes. Nitrocellulose lacquers used by our competitors, are not UV stable, they will yellow over time and are far less durable.

✱ **CAREFUL:** Do not be misled by low cost coated products, your durability *will* be compromised.

## STYLE

Softouch doors come in a range of one and two piece routed designs, from the classic to the contemporary.

## COLOUR

Now you can choose from an array of available colours. Or arrange to have us match that special colour that is a must for your design project.

## TOUCH

The silky smooth finish of a Softouch door speaks to Pentco's commitment to quality.

## FINISH

A Softouch door can be further enhanced by a variety of finishing options ranging from a flatter 10 degree sheen, to a 30 degree satin sheen, as our standard offerings. Our 6000 series can achieve a high gloss finish by using Acrylic Urethanes and Polyurethanes over a chosen base coat providing an exceptional smooth and mirror like surface.

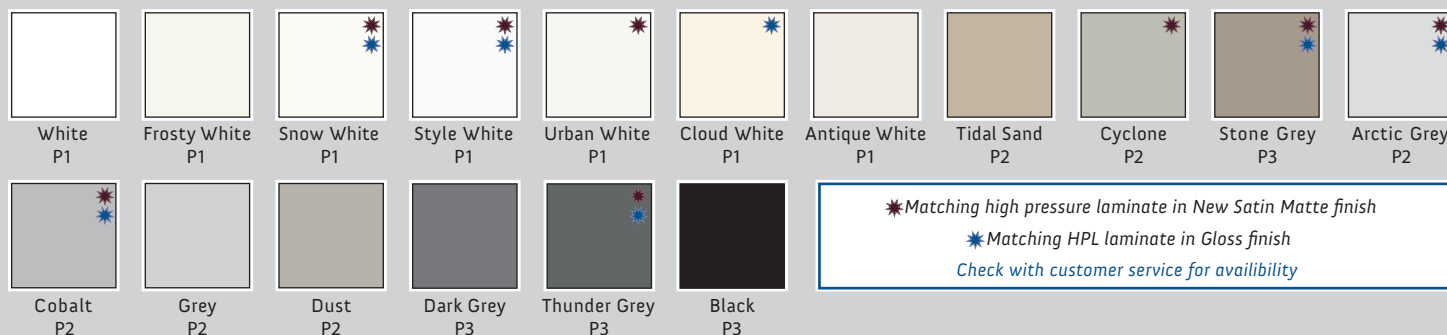

## CLEANING

Due to their quality, Softouch doors require minimal care. Use a soft, absorbent cloth, dampened with luke warm water to wipe off dust and fingerprints. For greases or other stains, use a mild hand soap.

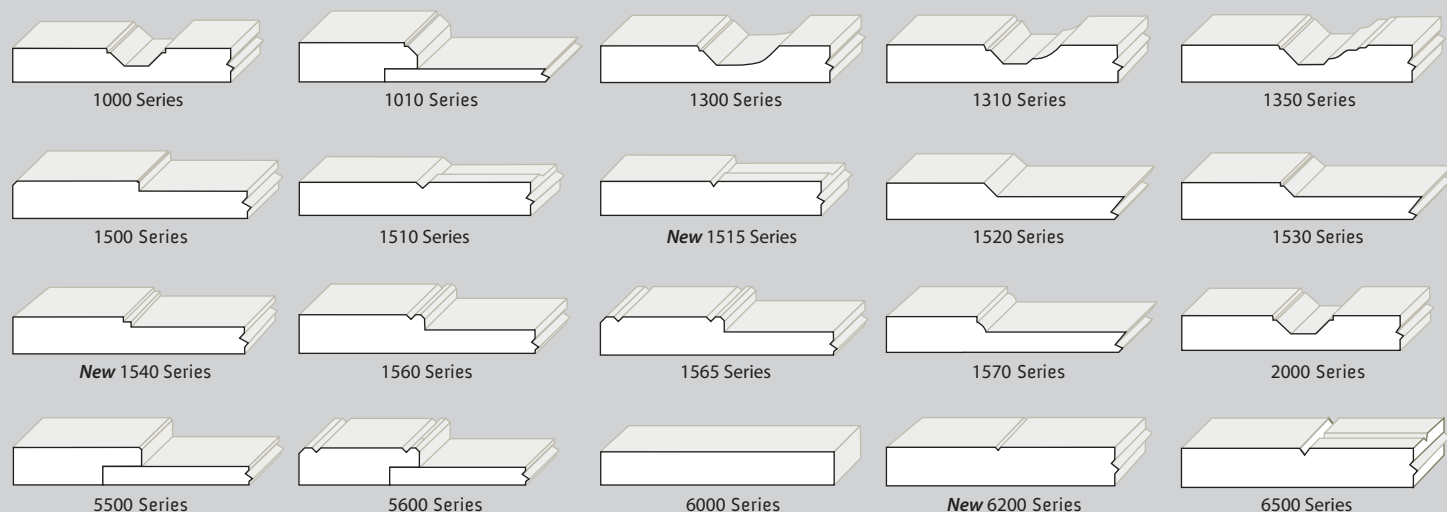

✱ **Never** use abrasive cleaning material, furniture polishes or bathroom cleaners that leave a build up or film on the surface.

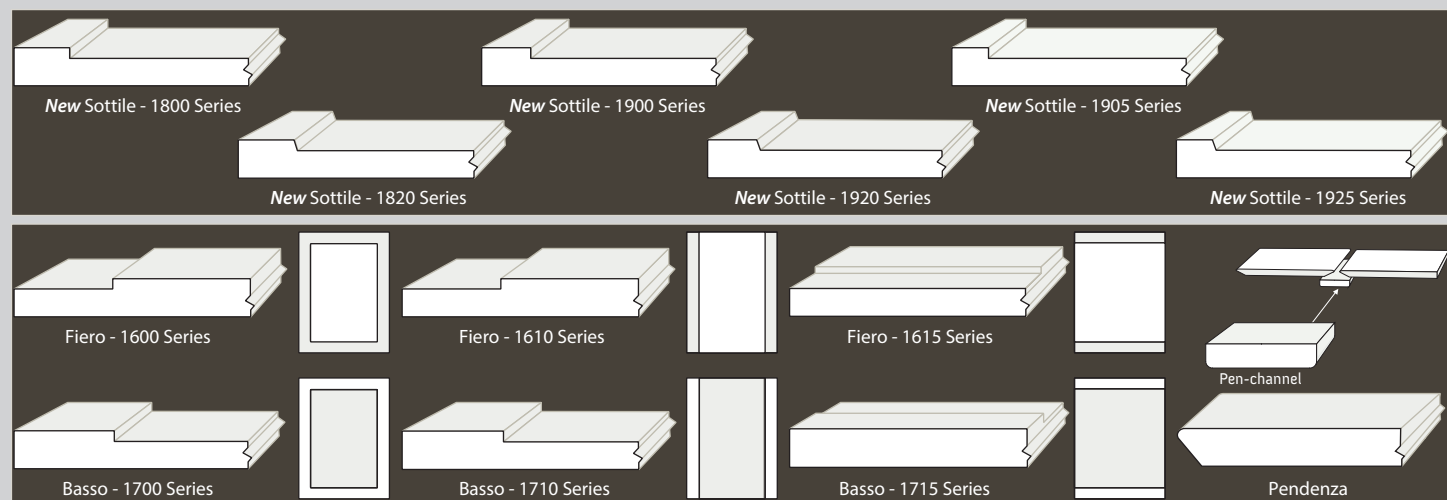

## AVAILABLE COLOURS (These colours are readily available at Pentco. If you require a custom colour match, please contact us.)

## INSIDE PROFILES

Note (1): Swatches should be used as a guide and not as accurate material representations.  
**Please contact Pentco for swatch or door samples.**  
Note (2): All efforts were made to accurately present available stock selections. Pentco may change or remove selections at our discretion. Contact Pentco to get information on current stock selections.

## OUTSIDE PROFILES
