

PENTCO

FULLWRAP POST-FORMED GLASS RAILS

Add that special touch to your upper cabinets with vertical or horizontal glass rails.

VERTICAL RAILS

HORIZONTAL RAILS

*Pentco Industries does not supply the glass or installation. Typically glass installation is the responsibility of the cabinet maker. Special arrangements can be made by Pentco to supply larger volume orders with glass and installation if required. **Note:** Prior to machining, a sample piece of Glass is required at the time of placing an order. Rails are slotted for specified glass size. Ensure unslotted edges are polished.*
